Report of Principal and School Improvement Council

As we strive "To inspire and motivate a community of passionate, contributing learners," Frances Mack Intermediate School students, faculty, staff, and parents worked diligently to increase student performance in all areas. Our focus this year has been on using strategies to increase literacy in all content areas. Our English Language Arts teachers worked in High Progress Literacy classrooms which ensured that students participated in purposeful and meaningful reading, writing, and discussion at least 75% of the time they were in the classroom. Our sixth grade math and science teachers addressed literacy in the content areas through participation in the IQ-MS initiative, which promotes literacy strategy use in all contents. A district-wide endeavor added a large collection of non-fiction e-books to our library catalog for student use.

To help decrease the impact of summer loss in literacy skills, each of our students chose twelve books to take home, read independently or with family members, and add to their personal library. Excitement was high as students chose old favorites and new adventures to keep their minds engaged for the entire summer. During our weekly professional learning sessions, we further developed our use of data and refined the data points that we used to promote growth in the areas of academics, attendance, and behavior. As a result of our weekly discussions, we provided needed interventions to assist students in one or more areas and followed their growth throughout the school year. As a result of these interventions, we have seen attendance and academic success improve and discipline numbers decrease.

Through their weekly subject area planning sessions and team meetings, teachers made progress in individualizing instruction and enrichment activities to better meet the needs of our students as they become self-directed, critical thinkers and successful learners. We strengthened our technology program with the addition of Chromebook usage in our daily instruction.

As the deadline for full implementation of the Common Core State Standards fast approaches, our professional development focused on understanding the changes which will occur in instruction and assessment. We have been studying the standards and sample assessments that will take our students to much higher levels of understanding in all subjects with the literacy and numeracy demands of the new standards. Our challenge for the upcoming school year will see teachers create and implement new units of study and assessments that address the depth of knowledge required for students to attain mastery of the Common Core State Standards. ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: http://ed.sc.gov/data/esea/ or request this information from your child's district or school.
